About Our School

At ESF Clearwater Bay School, we excel at personalising learning and inspiring curious minds. This winning combination helps us bring out the very best in every student. We understand that every child is unique, with different skills and varied interests. Our world-class staff work each and every day to help each and every student find their passions and to develop their individual personality.

At our school, your child will receive a rigorous primary education through the International Baccalaureate (IB) curriculum. We use IB's Primary Years Programme (PYP), which focuses strongly on core skills with lots of opportunities for students to inquire, investigate and discover for themselves, building a firm footing to take the next step up to our ESF secondary schools. Students love our flexible, shared learning spaces where they can engage in exploratory learning in small groups, as well as get together to share and celebrate what they have been doing.

Beyond the classroom, we encourage students to always be learning throughout the school day. In our spacious indoor shared spaces, students tinker with technology and try new skills. Outside, our eco-warriors get busy maintaining the microgarden. In our extensive library, passionate readers find cosy nooks or discuss their favourite books with our full-time librarian. In our fantastic rooftop playgrounds, children get active and develop their team spirit.

A strong sense of community is also key to our success. Our teachers maintain an open-door policy and parents are hugely involved in the school, through the PTA and by taking part in the many school events. We celebrate the rich cultural diversity of our students and families who come from more than 35 different nationalities and backgrounds.

Clearwater Bay School occupies an idyllic spot between Sai Kung and Clearwater Bay, and is the perfect environment for a fantastic international primary education that fosters students' academic, emotional, social, physical and cultural development.

Meet the Principal

Michael is an educational leader with vast experience in international education. He is someone who likes to 'roll up his sleeves' and is a constant presence in the classroom and at the school.
