About Our School

At ESF Glenealy School, children's learning and wellbeing are at the heart of all that we do. We understand that every child is unique. We know that they have their own skills and passions, and our world-class staff work each and every day to help each and every student to be the best that they can be. Our children are kind, happy, engaged and, above all, they are always learning.

Our International Baccalaureate (IB) curriculum is designed to be personalised, relevant and meaningful to all children. We use the IB Primary Years Programme (PYP), which offers appropriate challenges while supporting all students' academic, social, physical and emotional needs. The PYP also sets our students up for a successful transition to their ESF secondary school, which also follows the IB.

We draw upon the latest research, technology, and knowledge of our teaching staff, including specialist teachers, to enrich the curriculum, particularly in the areas of Mandarin, physical education, music, information, and digital literacy. Our students are growing up in an ever more digital society and we use technology in a purposeful and integrated way to ensure that our students develop the attributes and skills that they will need to be actively, positively and successfully engaged in the digital world.

Glenealy School's Parent Teacher Association (PTA) works to enhance the student experience by organising and funding various activities and initiatives. These include field trips, after-school programmes, cultural experiences, and fundraising campaigns to support important school projects. These efforts contribute to creating a vibrant and engaging learning environment where students can thrive and flourish, in partnership with parents, who are a vital part of our school and all that we do.

Glenealy School is known as the small school with the big heart. We work hard to ensure that every parent is informed and involved in their child's education, and that every child benefits from our personalised approach to learning. Join us today and become an essential part of this extraordinary journey.

Meet the Principal

Chris has 30 years of experience as both a teacher and leader - with a strong focus in his career on early years and primary education. He works hard to design classrooms and other learning spaces that allow children to explore new ideas, collaborate and problem-solve.
