About Our School

At ESF Kennedy School, we prioritise personalised learning to inspire curious minds. This winning combination helps us bring out the very best in every student. We understand that every child is unique, with different skills and varied interests, and our world-class staff work each and every day to help each and every student find their passions and develop their individual personality.

At Kennedy School, we offer the highest standards of teaching and learning under the umbrella of the International Baccalaureate (IB). We follow the IB's Primary Years Programme (PYP), which makes our curriculum challenging and engaging. Children build their understanding of the world around them by collaborating, sharing and interacting with others, and by asking questions to find out more. The PYP sets our students up for a successful and smooth transition to their ESF secondary school, all of which follow the IB curriculum as well.

Teaching at Kennedy School is delivered by super knowledgeable and passionate teachers who care deeply about their students and are always willing to help anyone in need of extra support. We get to know our children as individuals, each with something unique to bring to the way we all learn. We want our students to make connections not only to what's happening inside their classroom but across the school, the community and the world. We pride ourselves on the quality of our relationships – students and adults work collaboratively and support each other, enabling all to reach their full potential, because when we play together, we learn together, and grow together.

There are so many opportunities for learning at Kennedy School. Our campus in Pokfulam is equipped with modern facilities, including a new performance hall, well-resourced classrooms and access to an Olympic-sized swimming pool and amazing sports facilities. Join us at Kennedy School, as we nurture the creators, thinkers, inventors and entrepreneurs of the next generation.

Meet the Principal

Brenda is one of ESF's most experienced leaders, having held various senior positions in the organisation since joining us over 20 years ago. A native of New Zealand, Brenda builds strong relationships with staff, students and parents so that every child can be the best that they can be.
