

About Our School

At ESF Peak School, we provide the perfect learning environment for our students to be the best that they can be. We know that every child is unique, and we work hard to support your child in developing their own skills, passions and dreams, with our personalised learning programmes and focused individual support. Our students are kind, happy, engaged, and always learning, and it is a joy to see them flourish and grow into effective communicators, confident critical thinkers and enthusiastic lifelong learners.

We offer the rigorous International Baccalaureate (IB) curriculum. IB's challenging and engaging Primary Years Programme (PYP) is based on learning through playful inquiry, and it's the perfect preparation for primary students to continue with the IB curriculum through their secondary and diploma years.

Our teachers are selected from the best around the world, and they get to know each and every student under their care, encouraging and inspiring them to question, explore, experiment, and shape their own learning path.

At Peak School, learning takes place everywhere, all the time. At our buzzing science and art labs, students work together to grasp complex topics and explore their creativity. Our fully-stocked library, dedicated Chinese classroom, specialist music and performing arts room and fantastic playgrounds, provide children with lots of spaces to interact and learn. Throughout the school, charging cabinets holding laptops and iPads make it easy for students to access technology to enrich their learning.

A final feather in our cap is our unique location – surrounded by greenery, our beautiful campus is set atop the famous Victoria Peak on Hong Kong Island. We would love to meet and tell you more about what making Peak School the ideal home for your child's primary school years.

Meet the Principal

Bill is the epitome of a Principal who is involved in every aspect of the school. Leading from the front, New Zealander Bill is an ever-present figure at Peak School, helping the students to be the best that they can be.
