About Our School

At ESF Sha Tin Junior School, we help every student be the best that they can be. Our positive approach to learning is based on knowing that every child is unique. We work hard to understand their individual skills, passions and dreams, and help them develop their unique personality. At our school, children are kind, happy, engaged and are always learning.

We follow the prestigious International Baccalaureate (IB) curriculum, and the IB's Primary Years Programme (PYP), which is based on learning through playful inquiry. This early start with IB makes for a seamless transition to the IB's Diploma Programmes, offered at all ESF secondary schools.

Students love our small-group activities where they are able to investigate and discover together, as well as develop their social and teamwork skills. Our balanced programme ensures that children develop academically, mentally, socially and physically. Whatever your child needs, we have staff on hand for some extra help with a project, or a little bit of emotional support. There is always a member of our team around to help.

Alongside the outstanding education, it is the other extras that add up to the ESF experience. We have world-class facilities, some of which we share with ESF Sha Tin College, our partner ESF secondary school, where most of our Year 6 students move on to. We also offer a range of extracurricular learning experiences, class trips and excursions. After an overnight camp, the playground is abuzz with the sound of happy children who have learned a range of new skills.

Located in the heart of the New Territories, our school is just a short bus ride from Sha Tin MTR station, nestled on a lush, green hillside. In our safe and happy community, students develop a lifelong passion for learning and a confident 'can-do' attitude which helps them achieve their dreams. Come and visit us to see for yourself why Sha Tin Junior School is the right school for your child.

Meet the Principal

With 30 years of experience of teaching in and leading schools in her native Scotland and here in Hong Kong, Rehana is always looking for new ways to enhance the learning experience for her students.
