## About Our School

At ESF Tsing Yi International Kindergarten, we're all about nurturing confident, caring and independent children. The early years are so important, and our learning environment is one where natural abilities can shine and potential can soar. Curiosity, creativity and personal growth happen through playful, inquiry-based learning, bringing out the best in every student.

Our teachers understand that young children make progress at different rates. They give students lots of learning opportunities to make them feel supported and confident as they explore their unique interests and skills. As a result, our children are happy, engaged and always learning, making them well-prepared for their primary school years and beyond.

Our kindergarten follows the International Baccalaureate (IB) curriculum and students use the Primary Years Programme (PYP). PYP is also the basis for learning in our ESF primary schools, and this coherence and consistency to their learning is incredibly important for young children.

At Tsing Yi, there's a blend of English instruction and Chinese language and culture education. Native Chinese speakers are in charge of Mandarin, building a strong foundation for language skills. The open-plan classrooms at our kindergarten are filled with natural light. Our wonderful library is the gateway to endless discoveries and a place for building a lifelong love of reading. Students are welcome to dive into books, explore digital technology, and let their imaginations run wild. Special library sessions help develop literacy skills and curious minds, and each week children can take home a book to share with their families.

No one knows your child better than you do, and we work with you to bring out your child's individuality and guide them to be the best they can be. If you're ready for an incredible learning adventure, Tsing Yi is the place to be. We can't wait to welcome you into our wonderful community.

## Meet the Principal

Suzannah is a vastly experienced early-years specialist who has been with ESF for over 10 years. She is an inspirational leader who believes strongly that each child is unique and can be helped to find something that ignites their passions.
