## About Our School

ESF Tung Chung International Kindergarten is a place where children can do what they do best – learn, have fun, and discover the world around them. At Tung Chung, our teachers really get to know each of their students, so we can continually create new opportunities to engage them. We pride ourselves on listening carefully to what children bring to their learning, and developing a curriculum that honours their interests and ideas, and values them as unique individuals.

Led by Head of School Nicole Gouws, our team of exceptional teachers is passionate about creating learning and teaching opportunities that are stimulating and challenging. This is at the heart of the International Baccalaureate (IB) curriculum, and we use the Primary Years Programme (PYP) for K1 and K2 at Tung Chung to teach the basic skills of mathematics, develop language skills, and investigate scientific principles through fun and engaging activities. PYP is also the basis for learning in our ESF primary schools, allowing them to smoothly transition into our primary schools and beyond.

Tung Chung offers a Pre-Kindergarten programme for toddlers aged two. The programme is led by a team of certified Early Childhood educators and EDB-registered childcare workers who are dedicated to creating a safe, nurturing and stimulating learning environment. In our K1 and K2 Bilingual programme, children receive instruction throughout all areas of the curriculum in both languages, with one teacher speaking only in English and another speaking only in Chinese. Whichever stream you choose for your child, they will spend their day with incredible staff. Every single one of them, whether they are part of our English Language or Chinese team, will work to really get to know your child.

At Tung Chung, our welcoming and friendly environment is an important aspect of our child-centred approach to learning. Come and visit our lovely campus – it's the first stop on your child's education journey.

## Meet the Principal

Nicole has been with ESF for ten years in a variety of roles. Her speciality is early years and is committed to building strong relationships with parents in order to help all her students reach their full potential.
