About Our School

The essence of QBSK is found in the way our school makes you feel. From the moment you cross our threshold, you are met with a beautiful sense of belonging—a warmth that grows from our conviction that people are the heart of everything we do. We believe that when a child feels truly at home, they gain the confidence to pursue the ESF vision: to be the best that they can be. This journey begins with our deep respect for the child as a resilient, competent, and naturally curious learner. We do not simply teach; we travel alongside our students as partners, supporting them as they investigate, explore, and construct their own working theories to make sense of the world around them. At QBSK, every discovery is a shared milestone in a community where every child is seen, heard, and inspired to flourish.

In our vibrant learning spaces, we believe that play is the most natural and effective way for children to learn. Far from being just a series of activities, play at QBSK is a purposeful way for children to investigate their world, solve problems, and build social skills. Our educators listen intently and document these moments of discovery, using photos and stories to make learning visible. This ensures our teaching stays responsive to the children's interests whilst allowing families to share in every step of their progress.

This sense of connection extends far beyond the classroom walls. As a fully integrated part of the Quarry Bay School community, we offer a unique bridge between the Early Years and Primary education, removing the traditional barriers to transition and replacing them with a continuous, joyful path. Within this supportive community, our students are encouraged to be strong, capable, and curious researchers. Our mission is to ensure every individual feels valued, heard, and inspired to reach their full potential within a space where they truly belong.

Meet the Head of School

Claire brings extensive experience across diverse educational landscapes, with a deep expertise in early years. She is dedicated to empowering every child to find their voice, thrive in uncertainty, and begin a lifelong pursuit of excellence.
