## About Our School

Renaissance College Kindergarten is a brand-new campus, built not just for learning, but for belonging. While our expansive facilities are newly custom-built for our learners, our educational excellence is deeply rooted in the expertise of our experienced ESF teachers who deliver a world-class, IB PYP-accredited curriculum that has served thousands of students over the years.

From the moment your child enters our doors in K1, your family has clarity and assurance of your child's educational journey. This is the ESF Renaissance College journey. A seamless path from K1 to Year 13. At Renaissance College Kindergarten, parents are our partners. Together, we create a supportive community that celebrates every milestone your child achieves.

Our school vision centres around developing our student's sense of belonging, and building strong relationships that support our students to learn, wonder and flourish.

Teachers and educational assistants guide students in their exploration, encouraging collaboration and inquiry. Our students thrive in a supportive atmosphere that cultivates a love of learning, ensuring that every child feels valued and empowered in their educational journey.

We offer families a choice: Students may join our English classes with weekly Mandarin instruction, or our dual-language classes, which have two full-time teachers, each speaking their native language.

## Meet the Head of School

Nicole has been with ESF for over ten years in a variety of roles.

Her speciality is early years education, and she is committed to building strong relationships with parents to help all her students reach their full potential.
